MEMORANDUM FOR THE CHAIRMAN, PROJECTS REVIEW COMMITTEE:

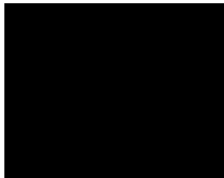

Subject: Surveys or Inspection Trips to Nearby Diplomatic Posts

1. It is recommended that the several members of ICAPS make brief surveys or inspection visits to nearby diplomatic posts to determine the effect which WIA No. 7, the collection directive and subsequent agency directives have had on collection procedures in the field.

2. Such visits would also give ICAPS in particular and CIG, in general, its first-hand impression of overt collection activities at collection centers.

3. Possible posts might be:

25X1A6a

4. It is believed that a maximum of five working days at the post would be sufficient.

5. It appears that adequate funds are now available.

6. The cost of each trip should be nominal inasmuch as arrangements could probably be made for transportation via military aircraft in some instances. The only other expense involved would be the per diem allowance for the individual concerned.

7. Assignments to posts will be made by the Chief, ICAPS.
